Social Narrative: Strangers

Talking to strangers may not be safe for children and adults with an autism spectrum disorder or related developmental disabilities.

To learn more:

How-To Template: Social Narratives (www.HANDSinAutism.org/tools.html)

To Make & Use:

1. Modify the narrative based on the individual needs.
2. Print the narrative and laminate if needed.
3. [Optional] Cut the template into individual text strips and use a clip to hold together if needed.
4. Read the narrative several times together with the individual.
5. Address the narrative during the activity, if needed.

They may need to be individualized to meet the particular needs of a person with an ASD!**

Strangers

When I leave my house, I see people.

Some of the people I see are people I know, some are strangers.

I should NEVER talk to a stranger or go with a stranger.

If a stranger tries to talk to me, I should walk away and find someone I know.

It is not safe to talk to people I do not know.
