

REGIONAL LCC SUMMIT 2020

Concepts, Ideas, Networking, Innovation

HANDS in Autism® Local Community Cadres (LCCs) are evolving and you are invited to participate. By taking part in the process of **reassessing**, **reframing**, and **realigning** this community-based group, you can show your support for individuals with autism spectrum disorder (ASD). Join us at the **Regional Autism LCC Summit 2020 for Northwest Indiana!**

WHAT:

The LCCs have been a statewide presence since 2010, serving as a valuable platform to Indiana's support framework for individuals with ASD and their families. To strengthen and further enhance the LCCs, we are hosting the Northwest Regional Autism LCC Summit 2020. This Summit is necessary to expand, enrich, and realign with other local and statewide ASD initiatives.

This action-oriented day of collaborating, informing, networking, and problem solving will enable stakeholders in the region to impact and influence ASD-specific needs in various ways—including the identification of current, locally relevant challenges and how to address them. Collective input and data collected at the Regional LCC Summit will support future assessment and re-framing efforts towards next steps in the Northwest Region LCC, as well as the other LCC regions and statewide networks.

WHO:

You! We need a range of passionate stakeholders willing to collaborate and contribute to the overall well-being of individuals with ASD and their families—the principal mission of this local initiative.
